

Are you an experienced Architectural Intern looking for a variety of projects to complete your log book?

Are you a Registered Architect wanting to experience new projects with a wide range of different clients?

Are you looking for a supportive team atmosphere, where achieving good design solutions is always the goal?

Then you have found your new work home! At pico ARCHITECTURE we value good people, good design, and all while having a good time doing our work.

We complete design solutions at all scales: from community-oriented renovations of a few hundred square metres, to government funded projects with budgets in the tens of millions.

We are looking for a Registered Architect or Architectural Intern with a minimum of 3 years of experience, well-versed with the National Building Code and Manitoba Amendments. The successful candidate should be passionate about sustainable design, well-skilled in technical aspects of the profession, and able to work cooperatively as part of a design team.

If you are interested in a position at this dynamic firm, please submit your resume in confidence to gail@picoarchitecture.com. We thank all applicants for their interest, however only those selected for an interview will be contacted.
