## ARE YOU AN ARCHITECT WITH PROJECT MANAGEMENT EXPERIENCE? MMP ARCHITECTS WOULD LIKE TO HEAR FROM YOU.

MMP Architects is experiencing significant demand for design and consultancy services, and we have an important, immediate position to fill for an experienced and versatile Project Architect.

### YOU

As Project Architect you'll be directly involved in the design, production, and oversight of projects from start-up to completion on a variety of building types, providing valuable organizational and technical guidance to your team. As a team leader, you excel in working directly with outside suppliers, consultants, contractors, and clients in the pursuit of successful projects. You have solid skills in producing and coordinating contract documents on time and on budget, and the resume to prove it.

### US

You'll be empowered and supported by a talented staff of designers, technical staff, and administration to help keep things running smoothly. In exchange, we offer a competitive salary plus benefits including full medical and RRSP matching, newly renovated office in the Exchange District, and a great team to work with while we make meaningful contributions to our built environment.

Since 1936, MMP Architects has earned a well-deserved reputation for being a fast-paced, fun, and friendly office. We are a mid-sized architectural firm with a diverse portfolio that includes Healthcare, Multi Family, Commercial, and high-rise construction, with over a dozen major active projects at any given time. Our office features a gym, shower amenities, indoor bicycle lock-up and nearby parking. We offer opportunities for continuing education and training in a collaborative office that is committed to making positive change.

### THE ASK

We're looking for a self-motivated, technically-proficient and skilled architect with a minimum of 5 years relevant Canadian experience in commercial projects. Attention to detail and the ability to clearly communicate with a larger team, including consultants, are critical. Relevant knowledge of current MB Building Code and MECB are required, as are skills in AutoCAD and Revit. Must be currently registered or eligible for registration with the Manitoba Associate of Architects.

Send a cover letter and CV to [careers@mmparchitects.com](mailto:careers@mmparchitects.com) (subject line: **project architect**)

MMP Architects is committed to being an inclusive, equitable employer. *Only those currently residing in and eligible to work in Canada* will be considered for this position. Only those candidates selected for interview will be contacted.
