Re: **Seeking Architectural Intern**

About

AtLRG Architecture Inc is a growing design office located in Winnipeg Manitoba, with a focus on private development work in multi-family and commercial projects. AtLRG brings a rational, minimalist approach to their design process, rooted in a desire to achieve more with less. We view constraints as opportunities for boldness and excitement.

AtLRG Architecture Inc is currently seeking an enthusiastic and self-disciplined architectural intern to join our growing team. We shall offer the right candidate(s) an excellent opportunity to grow professionally within our practice, with competitive compensation matching the successful candidate's skills and experience level.

Role & Responsibilities

While under the supervision of the managing architect, the candidate will actively participate in the architectural design process. This will include a variety of scales and typologies of projects, in all phases from pre-design and schematic, through to construction documents and contract administration. The architectural intern will also assist in product & material research and selection, costing exercises, code and zoning analysis, development permit submissions, project coordination, as well as communication with consultants, authorities and clients.

Qualifications

The ideal candidate has 2 years experience professionally, and working knowledge of the Manitoba & National Building Code. They are curious, studious, resourceful, collaborative, self-motivated, and organized.

They are also proficient in the following:

- CAD drafting and drawing set composition and organization.
- A familiarity with Building Information Modelling, and team collaboration would be an asset on Vectorworks platform.
- Software applications: Sketchup, Adobe CS, Vray, Rhino, Pages & Numbers.
- Common construction systems and construction methods.
- Physical modelling, laser cutting, and 3D printing fabrication processes.
- Hand sketching and graphic presentation.
- Written communication skills and or experience in proposal writing.

We thank all those who apply in advance – only qualified candidates interested in pursuing a full-time career in the architecture profession will be considered for a position. All inquiries will be kept confidential.
