

JDB Architectural

ABOUT

JDB Architectural is a small, but experienced architectural office that primarily services design-build construction management offices. We focus on highly detailed design solutions for high end single family residential and small scale commercial clients. JDB Architectural is a small, tight knit team with with many experienced individuals. We offer employee's the ability to grow within their role and take on additional responsibility, whatever their aspirations may be.

We provide a full service design experience which aims to give clarity & surety when proceeding into construction. We achieve this with a thorough schematic design process, detailed design renderings and diligent construction drawing packages.

We offer our employee's the ability to collaborate on a daily basis with construction management offices and gain valuable real world experience on construction sites and with trade contractors.

Much of our work can be seen at lolacon.com and whitelabelhomes.ca or at [@whitelabelhomes](https://www.instagram.com/whitelabelhomes) on instagram.

WHO WE ARE LOOKING FOR

JDB Architectural is looking to expand its design team. We are in the market for a masters of architecture graduate, intern, or junior architect to help bolster our pre-construction team.

Suitable candidates should have the following core competencies:

- An understanding of construction drawings and building science
- Experience assembling construction drawing packages
- Experience with 3D modelling and rendering software
- Minimum 1 or 2 years of experience in a professional office
- An interest in working on high end single family residential projects
- An interest in collaborating with clients
- An interest in dealing hand-in-hand with construction management and trade contractors

Interested applicants can send in their resumes to jeff@lolacon.com or call (204) 293-6742
