

Otto Cheng Architect Inc. is an established architectural firm providing comprehensive and creative architectural services to an extensive list of private and corporate clients. We have a stable and consistent workload involving a wide range of multi-family residential from townhouses to high-rise apartment towers, mixed-use, commercial, hospitality, industrial and master planning projects.

We have an immediate opening of the following position to support our team for the current commercial and multi-housing projects in design development, construction documentations and construction administration. This position will provide excellent opportunities and a vast experience for the individual actively involved in our current and upcoming projects in design development, construction documentations and construction phases.

[Architectural Intern]

Requirements:

- Minimum 3 to 5 years of Canadian architectural office experience;
- Strong design, graphic & presentation skills;
- Working proficiency in AutoCAD, SketchUp & Photoshop;
- Solid understanding of current National Building Code & Manitoba Building Code;
- Good knowledge of Winnipeg Zoning Bylaw & Canadian construction practices;
- Ability to work both independently & in a team-oriented environment;
- Excellent verbal & written communication skills;
- Strong desire for challenges & opportunities in career growth.

To apply, please email your cover letter, CV, references and samples of your work in PDF format to:
